

IBC Tote Deployment Kits

Steel stands that raise an IBC tote to gravity-fill buckets — no pump, no power.

SPECIFICATIONS

Construction	Durable steel
Compatible totes	1,000 L and 1,100 L IBC
Operation	Gravity-fed — no pump or power
Security	Padlock point locks tote to stand (padlock not included)
IBC tote	Available with the kit

FEATURES

Gravity fill. Buckets fill straight from the tote valve.

Locks in place. Add your own padlock to keep the tote from being separated from its stand.

Stage ahead. Set up before fire season, ready when needed.

Built to last. Durable steel stands outdoors year-round.

Applications

Bucket fill

Pre-season staging

Non-potable wildfire water
