

Swiftwater SMS

Supply management system — 25,000 L of secure, deployable water storage in a 20 ft container.

SPECIFICATIONS

Capacity	25,000 L (6,600 US gal)
Housing	20 ft ISO container (22G1)
Dimensions	20' × 8' × 8'6"
Weight	Under 6,000 lb empty · approx. 61,000 lb full
Suction & fill	4" NPTF primary valves
Linking	2 × 3" lower valves with camlocks
Fill type	Air-gap, municipal compliant
Level indicator	Sight glass with float
Access	Lockable doors and roof hatch
Site prep	Four-point wood blocking

FEATURES

Fire-service ready. 4" NPTF valves take fire department, industrial or agricultural fittings.

Link in series. Balance levels across units; fill and draw from one point.

Secure storage. Pumps, fittings and hose lock inside with the tank.

Pump-friendly suction. Screened lines reduce vortexing and debris.

Moves like a container. Standard trucks and lifting equipment.

Applications

Structure protection

Wildfire aviation

Municipal water

Agriculture & drought
